**Re: Stand Pipe Water Haul Rate Change**

---

On April 13, 2022, the Beatty Water and Sanitation District Board voted to increase bulk water rates at the A Ave N. maintenance yard stand pipe. The price change is effective June 1, 2022 and will only change if in excess of 100,000 gallons is hauled in one month of treated water. The price of untreated water at the spring remains unchanged.

### Water Haul Pricing:

	<u>PREVIOUS</u>	<u>NEW</u>
• UNTREATED:	\$4.00/1000 gallons	\$4.00/1000 gallons
• TREATED:	\$6.00/1000 gallons	\$6.00/1000 gallons - up to 100,000 gallons \$12.00/1000 gallons - over 100,000 gallons

The Beatty Water and Sanitation District looks forward to serving your water needs.
